Monique dreads school. The constant torment makes her feel like a sideshow freak. Every day, Monique wanders the scariest place on earth, the school hallway, and wishes she could just disappear - and then she does. Monique finds herself out of high school and in an "unusual, disturbing, and fantabulastic" sideshow. Monique the freak, the freakiest freak of all, wonders how she got there, why she is there, and what other outcasts lurk inside.

## FREAKY FACTS

Teen suicide is a pandemic in this country. Bullying and teen suicide have now become synonymous. In researching bullying and suicide, there seems to be a new catch word that has become part of the growing trend of bullying in schools. It's called bullycide, which is "suicide caused by bullying and depression." 86 % of kids who are picked on or bullied turn to violence in schools. Unfortunately, statistics state that at least 28.5 % of the victims that are bullied, lead to violence towards themselves.....SUICIDE. Recent statistics that over 280,000 are physically and emotionally attacked in secondary schools each month.
